

VS The blender I used before
The blender I use now

- It takes a lot of space
- It is very hard to clean after using
- Can automatically separate plant fiber from juice but I'd rather drink full fruit juice

01.把洗净切好的水果放入杯中

02.倒入水或牛奶

03.按压杯体榨汁

04.替换杯盖，轻松带走

- It is very small and saves a lot of space
- It consists of only two parts so it's very easy to clean
- The body of the blender can also serve as a juice bottle so it's very easy to carry
